

South Yorkshire Schools Climate Change Conference

(For Year 9 and Year 10 students)

Sheffield Town Hall Pinstone Street S1 2HH

Thursday 9th July 2020 9:30am – 3:30pm

Your School a Vital Key to Help Solve the Climate Emergency

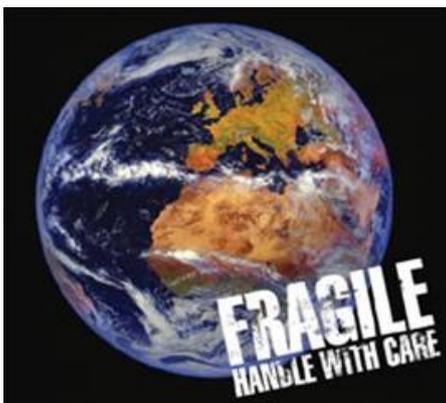

The Climate Crisis is real and increasing numbers of our young people and adults are rightly worried. We need real actions to address this complex issue. Everyone has a part to play in this challenge, but schools have a particularly significant role.

We need to improve the climate change knowledge, skills and attitudes of everyone living and working in the communities of South Yorkshire. At the heart of our communities are our schools and so they are a vital key to our future success.

The teachers, support staff, parents and governors in our growing number of eco-friendly schools, deserve our thanks for the great work they are already doing. However, even our most eco-friendly schools recognise there is still much more to be done, on their school campus and throughout their curriculum. This will enable their young people, to play their full part in shaping a hopeful, low carbon, climate friendly future for South Yorkshire.

This conference will bring together schools from across the region. It will provide opportunities for Y9 and Y10 students and their teachers to participate in a wide range of talks and workshops. These activities will celebrate best practice and illustrate the exciting role they can play, in making their school a leader in this vital area of education.

Your School a Beacon of Hope for a Climate Friendly Planet?

At the end of the conference we hope that those attending will return to their schools empowered to be Eco-Champions. Eco-Champions who can act as a catalyst for positive change throughout their school.

These schools will then be increasingly playing their full part in helping to create a more positive, hopeful future for their young people, their community and their planet. A future where no young person feels they need to go on Strike.

To reserve your school's places, maximum 15, Y9 & Y10 students + adults or to request further information, please use this email address: schoolsclimateconference.SY@gmail.com
